*Published During 2003-2004*

**Notes regarding the source and currency of data:**

Data included in this School Accountability Report Card (SARC) are consistent with State Board of Education guidelines, which are available at the California Department of Education Web site at <http://www.cde.ca.gov/ope/sarc/data.htm>. Most data presented in this report were collected from the 2002-03 school year or from the two preceding years (2000-01 and 2001-02). Due to the certification timelines for graduation, dropout, and fiscal information, the data for these sections of the report were collected in 2001-02. A glossary of terms is available at <http://www.cde.ca.gov/demographics/glossary>.

## Suspensions and Expulsions

Data reported are the number of suspensions and expulsions (i.e., the total number of incidents that result in a suspension or expulsion). The rate of suspensions and expulsions is the total number of incidents divided by the school's total enrollment as reported by CBEDS for the given year. In unified school districts, a comparison between a particular type of school (elementary, middle, high) and the district average may be misleading. Schools have the option of comparing their data with the district-wide average for the same type of school.

	School			District		
	2001	2002	2003	2001	2002	2003
<b>Number of Suspensions</b>	0	0	0	0	0	0
<b>Rate of Suspensions</b>						
<b>Number of Expulsions</b>	0	0	0	0	0	0
<b>Rate of Expulsions</b>						

## School Facilities

New construction and modernization of the entire campus was completed in 2002. The campus includes an administrative building, four classrooms, an art room, science lab, computer lab, library and multi-purpose building. Staff, students, parents and other members of the community are developing an outdoor garden and nature trail.

## III. Academic Data

### Standardized Testing and Reporting (STAR)

Through the California Standardized Testing and Reporting (STAR) Program, students in grades 2-11 are tested annually in various subject areas. Currently, the STAR program includes California Standards Tests (CST) in English-language arts and mathematics in grades 2-11, science and history/social science in grades 9-11, and a norm-referenced test, which tests reading, language, and mathematics in grades 2-11, spelling in grades 2-8, and science in grades 9-11.

### California Standards Tests (CST)

The California Standards Tests (CST) show how well students are doing in relation to the state content standards. Student scores are reported as performance levels. The five performance levels are Advanced (exceeds state standards), Proficient (meets state standards), Basic (approaching state standards), Below Basic (below state standards), and Far Below Basic (well below state standards). Students scoring at the Proficient or Advanced level meet state standards in that content area. Detailed information regarding results for each grade and proficiency level can be found at the California Department of Education Web site at <http://star.cde.ca.gov> or by speaking with the school principal. *Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.*

### CST - All Students

Data reported are the percent of students achieving at the proficient or advanced level (meeting or exceeding the state standard) and percent not tested.

Detailed information regarding the California Physical Fitness Test may be found at the California Department of Education Web site at <http://www.cde.ca.gov/statetests/pe/pe.html>. *Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.*

All students tested meet fitness standards.

### Academic Performance Index (API)

The **Academic Performance Index (API)** is a score on a scale of 200 to 1000 that annually measures the academic performance and progress of individual schools in California. On an interim basis, the state has set 800 as the API score that schools should strive to meet.

**Growth Targets:** The annual growth target for a school is 5 percent of the distance between its Base API and 800. The growth target for a school at or above 800 is to remain at or above 800. Actual growth is the number of API points a school gained between its base and growth years. Schools that reach their annual targets are eligible for awards. Schools that do not meet their targets and have a statewide API rank of one to five are eligible to participate in the Immediate Intervention/Underperforming Schools Program (II/USP), which provides resources to schools to improve their academic achievement. There was no money allocated to the II/USP Program in 2002 or 2003.

**Subgroup APIs and Targets:** In addition to a schoolwide API, schools also receive API scores for each numerically significant subgroup in the school (i.e., racial/ethnic subgroups and socioeconomically disadvantaged students). Growth targets, equal to 80 percent of the school's target, are also set for each of the subgroups. Each subgroup must also meet its target for the school to be eligible for awards.

**Percent Tested:** In order to be eligible for awards, elementary and middle schools must test at least 95 percent of their students in grades 2-8 and high schools must test at least 90 percent of their students in grades 9-11 on STAR.

**Statewide Rank:** Schools receiving a Base API score are ranked in ten categories of equal size (deciles) from one (lowest) to ten (highest), according to type of school (elementary, middle, or high school).

**Similar Schools Rank:** Schools also receive a ranking that compares that school to 100 other schools with similar demographic characteristics. Each set of 100 schools is ranked by API score from one (lowest) to ten (highest) to indicate how well the school performed compared to schools most like it.

API criteria are subject to change as new legislation is enacted into law. Detailed information about the API and the Public Schools Accountability Act (PSAA) can be found at the California Department of Education Web site at <http://www.cde.ca.gov/psaa/api/> or by speaking with the school principal.

### Adequate Yearly Progress (AYP)

The federal No Child Left Behind Act (NCLB) requires that all students perform at or above the proficient level on the state's standards-based assessments by 2014. In order to achieve this goal and meet annual performance objectives, districts and schools must improve each year according to set requirements. Data reported show whether all groups of students in the school made Adequate Yearly Progress (AYP). Detailed information about AYP can be found at the California Department of Education Web site at <http://www.cde.ca.gov/ayp/> or by speaking with the school principal.

## Class Size Reduction Participation

California's K-3 Class Size Reduction program began in 1996 for children in kindergarten and grades one through three. Funding is provided to participating school districts to decrease the size of K-3 classes to 20 or fewer students per certificated teacher. Data reported are the percent of students in each grade level in the school that are in a class size reduction classroom.

3	100	100	100

## V. Teacher and Staff Information

### Teacher Credentials

Data reported are the number of teachers (full-time and part-time). Each teacher is counted as '1'. If a teacher works at two schools, he/she is only counted at one school. Data are not available for teachers with a full credential and teaching outside his/her subject area.

<b>Teachers with Emergency Credential</b> (includes District Internship, University Internship, Pre-Interns, and Emergency Permits)			
<b>Teachers with Waivers</b> (does not have credential and does not qualify for an Emergency Permit)			

### Highly Qualified Teachers

The No Child Left Behind Act (NCLB) requires local educational agencies (LEAs) to report specific data regarding highly qualified teachers. As of December of 2003, the State Board of Education (SBE) had not approved a definition for use in reporting data pertaining to highly qualified teachers. Therefore, the requirement that LEAs include these data will not apply to reports published during the 2003-04 school year.

*The State Board of Education is scheduled to approve a definition for "highly qualified teacher" in 2004. Once approved, LEAs will be required to use the definition to provide data on report cards published during the 2004-05 school year.*

### Professional Qualifications of Teachers

All teachers are credentialed. The teachers at Nicasio School have varying levels of experience. Three have masters degrees in education All teachers have SDAIE training. The teachers at Nicasio School have a broad range of both classroom and other vocational experiences. New teachers are mentored through The Beginning Teacher Support and Assessment State program

## Teacher Evaluations

Teachers are evaluated by the Principal.

## Substitute Teachers

All substitute teachers are registered with the Marin County Office of Education.

## Counselors and Other Support Staff

Data reported are in units of full-time equivalents (FTE). One FTE is defined as a staff person who is working 100 percent (i.e., full time). Two staff persons who each work 50 percent of full time also equals one FTE.

Support services for students with additional needs are contracted through the Marin County Office of Education. Resource Specialists, Speech and Language Specialists, Occupational Therapists, Psychologists, etc. are available to any student with a documented need.
